# MUSIC IS FOR Everyone

THE MUSIC PARTNERSHIP

We know that access to quality music teaching is important. As members of 'The Music Partnership' we are able to access funding to keep lessons affordable, to offer discounts and to provide an instrument loan service at no extra cost.

## Life-Changing

Music lessons can be life-changing. They give a sense of belonging, friendships to cherish, achievements to be proud of and are proven to promote well-being and increase confidence.

## Develop and Progress

Worldwide research shows that participation in music has many important benefits for young people including improvements in concentration and progress in other subjects at school.

## Instruments

Choose from a variety of instruments at no additional charge* including strings, woodwind, brass, guitar, keyboard, drum kit or singing.

*Please note we do not provide electric instruments or recorders.

## Lesson Cost

Schools work in partnership with us to provide music lessons. Your child's school will tell you the cost and how and when to pay. Discounts or remissions are usually available for qualifying families. Please enquire with your school or contact us directly.

## What do I do next?

1. Check with your school about the availability and cost of lessons and register your interest at your child's school, preferably in writing.
2. Your school will confirm the lessons and organise the payment with you.
3. The lessons will be arranged with the visiting teacher.
4. Your child will be allocated a group, day and time.
5. An instrument is provided and lessons begin!
